

Dose Excellence Program

Dose Management

Dose Excellence Program: Measure

Helping meet dose regulatory guidelines
supporting patient and staff radiation safety goals
ongoing outcome optimization through analytics and education

Start with the basics of measuring radiation dose and benchmarking your current dose management processes.

The Measure program can help you:

1. Meet state legislative and accreditation organization requirements
2. Develop comprehensive understanding of dose monitoring software tool and reports
3. Identify CT protocols above ACR recommended DRLs
4. Practice ALARA Principles confidently

Your Concerns

"I just want to be compliant and tracking dose information is now going to be mandatory so..."

Our Solutions

- Basic understanding of GE's dose monitoring software tool
- Identify protocols above national DRLs

Timeline

What's in it for you?

Week 1

Kickoff

1 Hour Remote

- Dose management goals
- Dose team concept introduction

Week 6

Advanced Training with Dose Assessment

1 Day On-Site

- Establish baseline from advanced dose analytics
- Review best practices
- Recommend optimization techniques
- Determine next steps for continuous improvement

It's not business as usual.
