

Quick connections

Cardiac Output Trunk Cables

Cardiac output cables from GE Healthcare are tested and verified to function with certain GE Healthcare monitoring equipment. Parameter color-coding makes them quick to connect.

- Cable curls and tangles are minimized by premium quality materials.
- A molded connector assembly helps keep cables flexible and prevents ingress of fluids.
- The cables have a connector for an injectate probe and also a standard three-pin catheter connector that fits most Swan-Ganz™ catheters.

Features

GE cardiac output cables are available in lengths of 3.6 m/12 ft. and 2.4 m/8 ft.

Product compatibility

Cables are compatible and verified with GE CARESCAPE™ B450, B650 and B850 Monitors via the CARESCAPE Patient Data Module (PDM).

Accessories simply compatible with your equipment

You can trust GE Healthcare accessories and consumables to keep your clinical devices working at peak efficiency.

- One contact point for expert advice
- Simplified ordering process
- Fast delivery
- Quality support at every step
