GE Healthcare works with its suppliers to ensure compliance of articles imported or manufactured within the European Union that are subject to the REACH regulation (EC- No 1907/2006), Article 33, and used in the production of GE Healthcare products.

Regarding the application of Article 33 of the REACH regulation and the publication of the Candidate List of Substances of Very High Concern (SVHC) according to Article 59 of REACH regulation, GE Healthcare is aware of its legal obligations and will comply with them.

GE Healthcare articles do not "intentionally release" substances under normal conditions of use.

Based on information from our suppliers to date, these substances are present in the following products at a concentration that may be greater than the threshold of 0.1% (w/w) at the article level:

GE Healthcare sadarbojas ar saviem piegādātājiem, lai nodrošinātu atbilstību Eiropas Savienībā importētajām vai ražotajām precēm, uz kurām attiecas REACH regulas (EK Nr. 1907/2006) 33. pants un kas tiek izmantotas GE Healthcare produktu ražošanā.

Attiecībā uz REACH regulas 33. panta pielietojumu un kandidātvielu, kas rada ļoti lielas bažas (SVHC), publikāciju saskaņā ar REACH regulas 59. pantu GE Healthcare apzinās savas likumīgās saistības un tās ievēros.

GE Healthcare preces normālos lietošanas apstākļos "tīši neizdala" vielas.

Pamatojoties uz mūsu piegādātāju sniegto informāciju, šīs vielas turpmāk minētajos produktos ir koncentrācijā, kas var pārsniegt 0,1 % svara robežvērtību pēc svara preces līmenī:

GE Healthcare werkt samen met zijn leveranciers om ervoor te zorgen dat artikelen die zijn geïmporteerd of geproduceerd binnen de Europese Unie voldoen aan de REACH-verordening (EG-nr. 1907/2006) artikel 33 en worden gebruikt bij de productie van GE Healthcare-producten. GE Healthcare is op de hoogte van zijn wettelijke verplichtingen omtrent de toepassing van artikel 33 van de REACH-verordening en de publicatie van de Kandidaatslijst van zeer zorgwekkende stoffen volgens artikel 59 van de REACH-verordening, en zal deze naleven. Onder normale omstandigheden geven de artikelen van GE Healthcare niet 'opzettelijk' stoffen af. Op basis van de huidige informatie van onze leveranciers zijn deze stoffen aanwezig in de volgende producten met een concentratie die mogelijk hoger is dan de drempel van 0,1% gewicht per gewicht op artikelniveau:

GE Healthcare v sodelovanju s svojimi dobavitelji zagotavlja skladnost izdelkov, uvoženih ali proizvedenih v Evropski uniji, za katere velja člen 33 uredbe REACH (št. ES 1907/2006) in ki se uporabljajo pri proizvodnji izdelkov družbe GE Healthcare.

Družba GE Healthcare se zaveda svojih pravnih obveznosti v zvezi z uporabo člena 33 uredbe REACH in objavo seznama kandidatnih snovi, ki vzbujajo veliko skrb (SVHC), v skladu s členom 59 uredbe REACH in bo svoje dolžnosti izpolnjevala.

Izdelki družbe GE Healthcare pod normalnimi pogoji uporabe ne sproščajo snovi "namerno".

Na podlagi dosedanjih informacij naših dobaviteljev so te snovi prisotne v naslednjih proizvodih s koncentracijo, ki je lahko večja od mejne vrednosti 0,1 % teže izdelka na ravni izdelka:
